VETERINARY LINIMENT GEL

TOPICAL ANALGESIC

Absorbine® Veterinary Liniment Gel Helps Your Horse to Heal Itself. Liniments are mild stimulants to the circulatory system that hasten and assist nature in returning a fatigued muscle, joint or tendon to normal. Absorbine Liniment Gel combines the same time honored blend of Calendula, Echinacea and Wormwood herbs as our trusted Absorbine® Veterinary Liniment.

INDICATIONS: Veterinary Liniment Gel relieves the pain and swelling of joints and muscles due to minor injuries, over exertion and arthritis.

DIRECTIONS FOR USE:

LEGS: To relieve pain and reduce swelling of the legs, rub Absorbine Gel in thoroughly three or more times a day. To speed effectiveness, apply gel with the lay of the hair and lightly wrap. Absorbine Gel is also effective for pre-workout rubs and post-workout "set up" wraps.

BACK, SHOULDER, AND FLANK: For relief of soreness and stiffness, rub Absorbine Gel in thoroughly. Apply three or more times a day. Do not apply Gel under the saddle area if you're going to ride the horse after treatment.

SHIPPING: During transportation, many horses injure their lower legs in the trailer or they "stock up" from prolonged standing. Shipping wraps are recommended to prevent injuries and Absorbine Gel is safe and effective under porous wraps in reducing swelling.

ARTHRITIS: A common condition in older horses, Absorbine Gel helps to loosen stiff, arthritic joints and reduce the swelling.

ACTIVE INGREDIENTS: Natural Menthol 4%. **Also Contains:** Alcohol 53%.

CAUTION: Use only as directed. For external use only. Keep out of reach of children. Avoid contact with eyes and mucous membranes. If skin irritation develops or symptoms persist for more than 10 days, discontinue use. For severe injuries, consult a veterinarian.
For animal use only.

WARNING: Flammable. Keep away from fire, sparks and heated surfaces. Store at room temperature.
